***Reasons For Allowance***

1. The following is an examiner's statement of reasons for allowance: claims 1 and 2 are patentable over the prior art patents and printed publications because of the specific driving pulse configuration for driving the first nozzle and the second nozzle, wherein the driving pulse supply means selectively supplies the first driving pulse including a preliminary pulse for vibrating an ink meniscus in a tip portion of the nozzle and a discharge pulse for discharging the ink droplet through the first nozzle in this order, and a second driving pulse including a discharge pulse to the second nozzle so that a direction in which the ink droplet is discharged from the first nozzle is different from a direction in which the ink droplet is discharged from the second nozzle. The combined limitations are not taught by the prior art of record alone or in combination.

The reasons for the indication of the allowability of claims 7, 11, 12, 17 and 18 have been discussed in the previous Office action issued on 12/27/04.

Claims 3-6, 8-10, 13-16, and 19-37 are allowed because they are directly or indirectly dependent from claims 1, 2, 7, 11, 12, 17 and 18 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Drawings***

2. The drawings were received on 03/25/05. These drawings are accepted.
